English

Tamil

### PROFILE

Final-year student, I have experience with Python, SQL, MS Excel, and various databases. I can handle data management, analysis, and manipulation tasks effectively. My skills in these areas complement my programming knowledge, enabling me to contribute to data-driven projects and solutions..

### PROJECTS

#### School Managent Student

- Developed a school management system using SQL.
- Enabled efficient handling of student records, teacher information, and class schedules.
- Supported data entry, updates, and retrieval of records.
- Provided a streamlined solution for managing school operations.
- Demonstrated strong SQL skills and database management capabilities.

#### Personal Portfolio

- Developed a responsive personal portfolio using HTML and CSS.
- Included features such as:
- Home page to introduce the portfolio.
- About Me section to share personal details and background.
- Skills list to highlight technical expertise.
- Contact form for easy communication.
- Showcased skills and contact information effectively.
- Created a professional online presence to reflect technical capabilities.
